THE LAST OF THE DIAZ AFFAIR

Copies of the Home Mission Board Pamphlet Received Here.

The Baptists of the South have probably now heard the last of the Diaz matter, which has been a bone of contention in the denomination.

Copies have just been received here of pamphlet just issued by the Home Mission Board for general circulation. It gives a frank, full and detailed account gives a frank, full and detailed account of the dealings of the board with its former missionary, Alberto J. Diaz, M. D., from 1896 to the present time. The story is a long one, and to the ears of the Baptists here is wretched and depressing. The Herald declares that the whole narrative confirms and deepens its conviction that the only just criticism that can be urged against the board is that it has been far too lenient and forbearing; that it condoned what was the most serious offense committed by Diaz, and that it went too far in its efforts to retain him; that Diaz has forfeited all claim to the confidence he once enjoyed, and has rendered it impossible to keep him in the employment of the board, is abundantly demonstrated by the plain facts recited in this publication, which was made by order of the Southern Baptist Convention.

ANOTHER GOLD BRICK CASE.
This Time the Venerable Commodore Porter is the Victim.

A short time since some scheming person or persons became aware of the Commodore's weakness for fishing (possibly Harry Tucker's descriptions of some of his many exploits may have given them the cue), promptly flooded his mail with circulars, etc., on how to catch fish, the best bait, &c. Following these came faming advertisement of a wonderful bait, "Shiners," which they offered to sell him for seventy-five cents, guaranteed to lure the largest chub, pike or sliver perch from the most inaccessible and remote corner of the pond, and to hang him on the hook every time. The Commodore bit ravenously. He could not wait to go to the postoffice, so employed a special messenger and bound him over to secreey, for fear that some of his rivals might learn of his discovery. To-day the wonderful "Shiners" came by express, at another cost of slxty cents, and an investigation revealed the fact that they were built minnows preserved in vinegar. DAILY FASHION HINT. GIRLS' OR MISSES' CHEMISE.

In the dainty Empire style chemise shown here we have what most girls like better than the plain straight style favored by their clders, although, if one prefers, the shirring for Empire style may be omitted. When the matter of economy is a consideration, the chemise is preferable, for it takes the place of a corset cover and a short pettlecat, The chemise has the round neck, the fulness being regulated by shaped facings, or, if preferred, by ribbon-run beading.

In the construction one may use lawn, cambric, nainsook, long cloth or dimity. The trimming may be simple or claborate, as one desires.

BOYS AND GIRLS

Don't Try to Fool Everyone.

"Look here," said the Lion one day to his tailor, the Chimpanzee; "you are the worst tailor I ever had. Just look at these trousers you made me last week. I just wore them down to-day to show you how miserably they fit, or rather how they don't fit. Why, they, are big enough around the walst to put another fellow in just my size. How in the name of goodness did you ever expect me to appear in the courtroom with such things as these?"

"Oh, Your Majesty," said his tailor, bluntly, and without rising, as he should have done. "That's all right; you see those were made loose because I know Your Majesty's great appetite, and I felt that I should leave room for Your Majesty's dinner."

Just then the Lion appeared. "Look here!" he said sharply. "You left these trousers wide to make room for dinner. It has occurred to me that you ought, therefore, to furnish the dinner to fill them." Saying which he set upon Mr. Chimp, and ate him up. The trousers then fitted tight.
